

Bowers and Wilkins P5 Headphones Audio Cable Replacement

The audio cable is easy to remove and first requires removing the earcups.

Written By: Ashley Ryan

INTRODUCTION

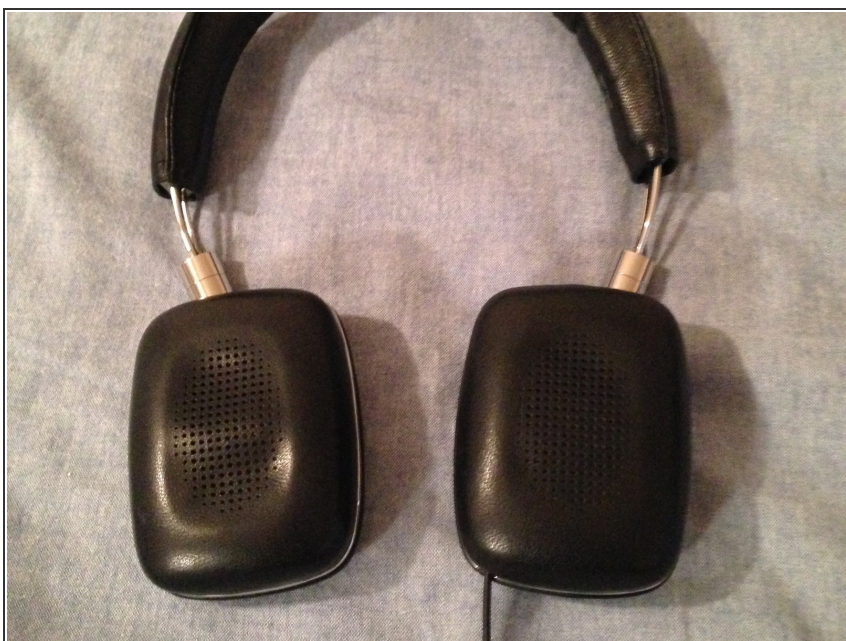

The audio cable is easy to remove. This requires absolutely no repair skills.

Step 1 — Earpads

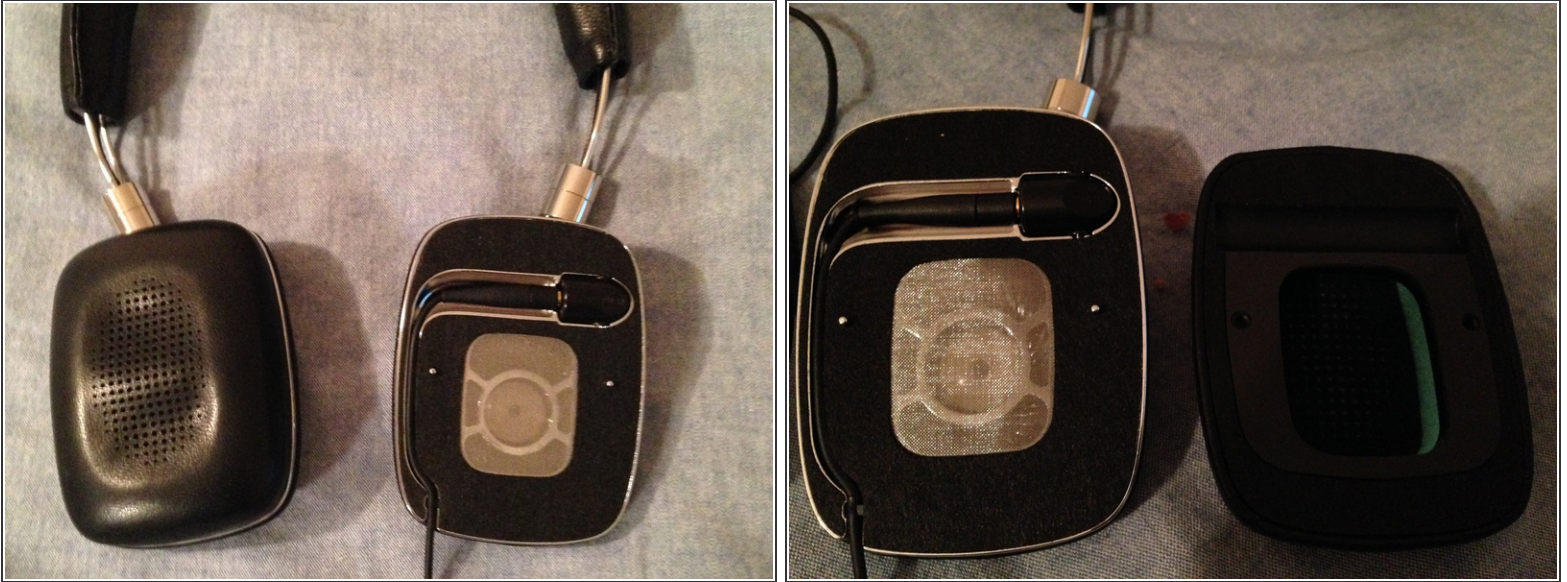

- To start, make sure that the headphones are disconnected from any audio source.

Step 2

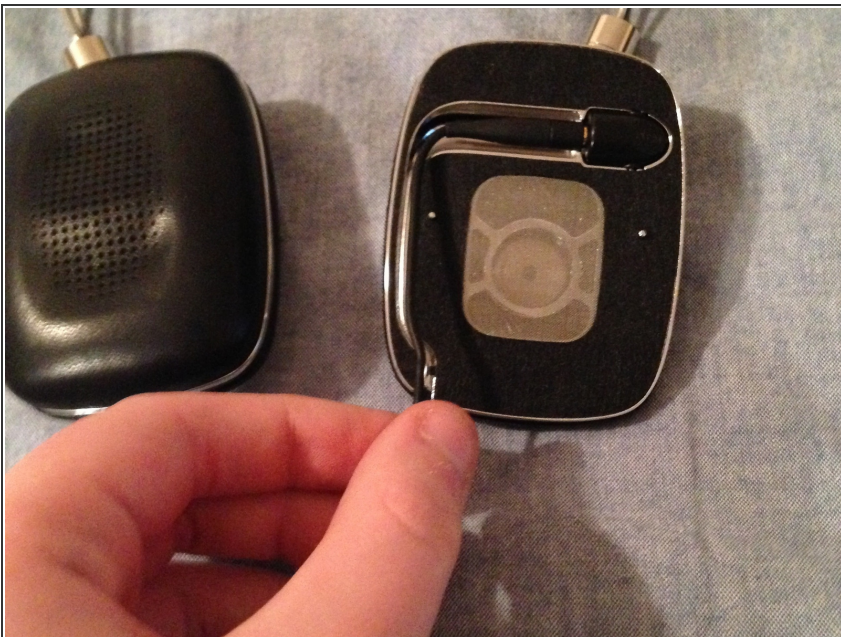

- Fold the earpads flat.

Step 3

- Pull off the earpad.
- When putting the earpads back on, make sure that the groove in the earpad is facing towards the top of the headphones.

Step 4 — Audio Cable

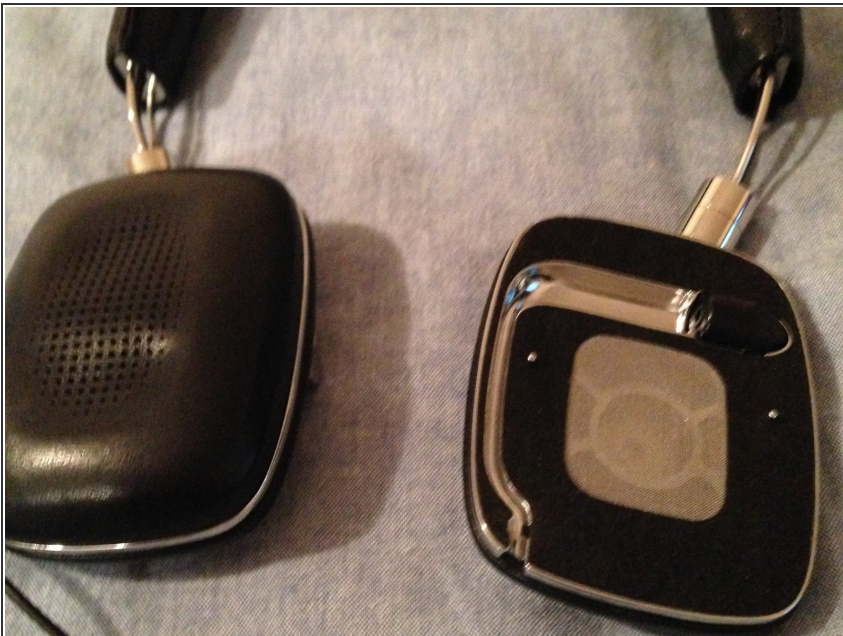

- Take the audio cable out of the clip.

Step 5

- Pull out the audio cable.

Step 6

- Headphones remain.

To reassemble your device, follow these instructions in reverse order.
